

# Cholesterol Screening

Fitech's palm sized test system offers a unique point of care tool for the monitoring of cholesterol and diabetes.

We offer a full range of screening options from a full test kit with training to a machine and test strip only solutions.

- Test for Cholesterol, HDL, Triglycerides, HLD and LDL with one blood sample
- Portable, low cost with results in two minutes or less
- Packages to suit all organisations with optional training and analysis software
- Ideal for screening, health fairs, fitness assessments and much more

## The CardioChek Cholesterol Machine

The CardioChek machine is a portable, low cost testing system for gathering highly accurate results allowing you to check cardiovascular health and risk factors within 2 minutes. Two options are available, the CardioChek PA (combined tests) and the CardioChek (single tests).

## Test Range:

- Lipid Panel (Chol, HDL, TRI, LDL)
- Cholesterol + Glucose NEW!
- Cholesterol + HDL NEW!
- Total Cholesterol
- LDL Cholesterol NEW!
- HDL Cholesterol
- Triglycerides
- Glucose
